Gary;

I'm expecting an IOM from Wastewater Permits Section by late this afternoon or tomorrow morning and wanted to check your mailing address. If there are any changes to the address I've pasted below, please let me know.

*Gary Moore, RPM, U.S. Environmental Protection Agency, Superfund Division  
(6SF-RA), 1445 Ross Avenue, Suite 1200, Dallas, TX 75202-2733*

Thanks;

Gary;

Yes, they went out and did several hand auger borings and submitted the site specific info in response to the permit denial, and submitted the additional information to me, and I referred it to the Wastewater Permits Section. I checked with the Wastewater Permits Section earlier today and hopefully will be hearing something tomorrow. They'll send me an IOM electronically, which I'll then transmit via letter.

I've reviewed the additional materials and have no comments or questions. I've started a draft letter to transmit to TRC, and am just waiting on the IOM. Rafael was cc'd on the first comment letter w/IOM from Wastewater, I'll be glad to include you as well.

Any news on the water discharge/irrigation permit that Falcon has applied for? Any way I can be put on the list to be updated on the progress. The determination of whether to grant them this authorization is completely up to you guys. I just want to know how it is progressing. They told me that they had to do some coring to show the actual depth to ground water and then resubmit. Can

you give me any more information or give me the name of the person handling?

Thanks
